EXPERIENCE

Senior Full Stack Developer
Devsinc
04/2024 - Present — San Francisco, CA

- Implemented **React Native** for cross-platform mobile application development, expanding the reach of our applications and ensuring a consistent user experience across devices
- Demonstrated expertise in front-end technologies, along with strong proficiency in server-side technologies and frameworks such as **JavaScript**, **Node.js**, and **Python**
- Conducted thorough code reviews to ensure code quality and adherence to coding standards
- Developed and maintained RESTful APIs, microservices, and various database technologies including **SQL**, **MySQL**, **GraphQL**, and web services
- Engaged in all stages of the software development life cycle and contributed to architectural designs
- Promoted a culture of continuous learning by facilitating knowledge sharing and fostering an environment of open and constructive feedback
- Proficiently utilized **Git**, **Trello**, **Jira**, **Slack**, and **Asana** for effective project management and collaboration

Senior Full Stack Engineer
Columbia Sportswear
02/2022 - 03/2024 — Portland, OR

- Collaborated with 6 members in designing and implementing scalable web applications using **React**, **Next.js**, and **Angular**
- Developed and launched a robust backend system utilizing modern technologies and frameworks, including **Node.js/Express.js** and **Java/Spring Boot**
- Played a key role in designing and optimizing database schemas using **MongoDB**, and implemented caching mechanisms with **Redis**
- Utilized serverless architecture to achieve scalability, and AWS Cloud technologies, including **Lambda**, **API Gateway**, **Cognito**, **SSM**, **EC2**, **CloudFormation**, **S3**, **SNS**, **RDS** and **EventBridge**
- Integrated **Apache Kafka** to enable real-time data streaming and processing, ensuring high-throughput, fault-tolerant communication between microservices
- Applied **Agile** methodologies, **Test Driven Development** and **Pair Programming** in coding practices, resulting in faster development cycles
- Promoted experience with **Kubernetes**, **Docker** and **Amazon Web Service**

Senior Full Stack Developer
Albertsons
01/2018 - 01/2022 — Seattle, WA

- Worked on both the backend and frontend of the platform, using **PHP**(**Laravel**) and **TypeScript**(**Vue**, **React**, **Node.js**)
- Integrated third party APIs for the payment gateway setup like **PayPal** and **Stripe**, and established **email** and **text messaging** services using **Sendgrid, Twilio** and **AWS SES**
- Implemented server-side rendering (SSR) to boost application performance and optimize search engine visibility (SEO), thereby enhancing user experience and significantly reducing load times
- Utilized test frameworks such as **Jest**, **Mocha**, and **Chai** to develop and maintain unit and integration tests, ensuring robust and error-free code
- Built robust backend system using **Python**/**Django** with the combination of AI Algorithms
- Implemented **Elasticsearch** to enable fast and scalable search capabilities, improving data retrieval efficiency and enhancing user search experiences with advanced filtering and full-text search functionalities

Full Stack Developer
Uber
09/2016 - 12/2017 — San Francisco, CA

- Developed dynamic front-end applications using **Vue**, **React**, **Tailwind CSS**, and JavaScript to develop the user interface to validate the user at the client-side and provide responsive feedback
- Built **LAMP** stack web applications using **MVC PHP** frameworks such as **Laravel**, **Symfony**
- Leveraged **jQuery** to streamline DOM manipulation, handle events, and implement **AJAX** requests for dynamic and responsive web applications
- Performed unit testing and integrated testing for implemented functionality with **Jest** & **PHPUnit** to write code faster and improve its quality

SUMMARY

I am a senior full stack developer with 8 years of experience in web development who has talents in JS/TS, Node, Python and Java.

I strive also to be a cooperative team player who not only learns from others but also can add to the strength of others to improve the overall output of the team

SKILLS

Frontend

React/Redux/Hooks · React Native · Next.js · Angular · Vue/Vuex

Backend

Node.js · Express.js · GraphQL · Laravel · Spring Boot · Django

Storage

MySQL · PostgreSQL · MongoDB · Oracle · Redis · DynamoDB

Tools & Platforms

AWS · Azure · GCP · Docker · Kubernetes · Jenkins · Git · Jira · Maven

EDUCATION

Bachelor's in Computer Science

Antioch University

09/2013 - 09/2016

VOLUNTEERING

COVID-19 Support Network

Independent Volunteer Initiative

04/2020 - 06/2020

Developed a platform to connect volunteers with those in need during the pandemic. Contributed as a full-stack developer, focusing on enabling services like grocery deliveries and medical support through **Java Spring Boot** and **React.**
